## Look What's New Playaway Audio

Homewood Public Library now has a new format in audiobooks.

**Playaways** are the self-contained audio equivalent of a book. The device comes pre-loaded with an entire book in audio format; in fact one **Playaway** can hold over 40 hours of content!

The device is about half the size of a deck of cards. The easy-to-use controls allow users to shuffle through the book, stop at specific points if desired, and automatically bookmark their stopping point when the unit is turned off.

They're pocket-size and preloaded for people who just want to press Play and go!

## Getting Started

**Plug earphones into universal headphone jack.**

**Press Playaway button to turn on.**

**Press Playaway button again and enjoy!**

## Checking Out

- **Select a title you want to check out.**
- **Take the empty case to the circulation desk.**
- **A staff member will retrieve the device from behind the counter, place it in your case, and check it out to you.**
- **You supply the headphones. You may use a set that you have at home or you may purchase them from the circulation desk. They'll be yours to keep.**
- **Loan period is three weeks.**

If you would like to search the electronic card catalog for more titles, do a keyword search using the term "digital media" and watch for this icon:

Keep checking back for new titles. Our collection **playaway** is brand new and we hope to add new titles, based on demand. Be sure and let a librarian know how you like them!
