#### COMMITTEE REPORTS

Advocacy – Mr. Barr attended a legislators’ breakfast meeting and reported that the participating legislators seem to recognize the value of libraries and the services they provide to the community. The legislators also emphasized a general lack of available funds at the state level due to current economic and budgetary circumstances.

Facilities – The remodeling project is expected to begin in early March. The library will try to keep patrons informed about the remodeling status throughout the project.

Finance – Ms. Colton and Ms. Rauch met with a representative of IMET, an alternative investment fund available to the library. After some discussion it was decided to further review the fund to determine its suitability for library use, possibly to include a meeting between Mr. Flor and the fund representative.

Governmental Affairs – Mr. Barr suggested establishing better communication with our state representatives, in particular in regard to the remodeling project being done without the library pursuing a tax increase. Other possible options for publicizing the remodeling project were also discussed.
